We come together and play instruments  
Happy and joyfully, we start singing!

I want to play **taar** and you're playing **tonbek**  
Someone is play **daaf** and the other one is clapping  
One is playing **santoor** and another is play a horn  
Somone is stamping their feet and another is whistling

We come together and play instruments  
Happy and joyfully, we start singing!

One has a violin and another one is playing guitar  
One is singing and another one is snapping

We come together and play instruments  
Happy and joyfully, we start singing!
